Forecast for Saturday 28 Dec 2024

Weather: Mist and fog possible at the start of the day otherwise a cloudy day with some light rain and drizzle around western areas, some brightness possible further east, the sun might break through here for a time in the afternoon.

Chance of cloud-free hill tops above 600m: 20%, best chance further east in the afternoon.

Low cloud and visibility: Extensive low cloud layers above 200m for western hills, cloud bases higher and more broken further east in the Welsh mountains with a few breaks and the chance of some fleeting views at the top of the more eastern hills. Visibility will be good but turning poor in drizzly outbreaks and very poor in mist and fog.
